

IMPORTANT NOTE AVAD3.4

- (1) DTC devices have a default configuration that is based on the Windows 7 operating system. The date Microsoft has stopped support for Windows 7 was January 14, 2020. It is recommended that any updates are performed exclusively by DTC.
- (2) It is expressly not recommended to the customer to update the operating system or connect the DTC devices to the Internet.
- (3) If and to the extent that the customer of DTC independently applies updates or programs to DTC devices, DTC will only extend warranty if the customer proves that the warranty case did not occur by the installation of software and/or programs by the customer.
- (4) Customers of DTC will treat DTC devices with care and inform DTC immediately of any defects or errors of the DTC devices.
- (5) In order to avoid damage, the customer is obliged to test DTC devices with all functions before productive use under customer-side conditions and not to use defective DTC devices.
